## **GOAL**

*The Goal of GV is the development of poor, marginal landholding farmers, landless, daliths in the community. This goal remains as the prime goal of GV. Specifically GV takes special interest in the promotion of women and children in specified communities.*

*At the beginning GV's intervention for development process was on child care and nutrition. Over a period of time GV realized the need for giving equal emphasis towards women development as well as the conservation of natural resources in general and water in specific, to come within the focus of GV*

## **PHILOSOPHY**

*It is a firm belief of GV that people should learn to collectively work, think, plan, and share the resources to avert the poverty that afflicts the poor in the society.*

## **POLICIES**

- *Work with the rural poor in the semi-arid area of the project area. Very specifically to promote women and dalith community*
- *GV helps children have the capacity to improve their lives & the opportunity to become young adults also promotes institutions for protecting rights of children.*
- *Develop sustainable institutions that would empower the women from this community.*
- *Their by instituting Self Help Groups as a process of development.*

## **ABOUT GRAMA VIKAS (GV)**

- ✓ *To promote among these women Self Help principles and the opportunity to share ideas among other group members.*

- ✓ *Networking with like-minded institutions.*
- ✓ *Influencing Government policies for rejuvenation of tanks with people's participation.*
- ✓ *Collaborating with the Government in projects that are designed for the poor.*
- ✓ *To evolve replicable modules for development based on GV's experiences.*

## **OBJECTIVES**

*Enable the target group to improve their assets and to generate income that is sufficient in meeting their basic needs, with the emphasis on Food Security.*

*Revive the natural environment for the benefit of small and marginal farmers.*

*To encourage SHGs to have a greater say in the local political forum like Grama Sabha.*

*To strengthen women SHG groups, develop sustainable activities and to develop groups that focus on specific issues that affect members directly.*

*Net working with other NGOs on common issues.*

*GV works in collaboration with the Government Line Departments.*

## ***FOUNDER OF GV***

**We are guilty of many errors & many faults, but our worst CRIME is abandoning the CHILDREN, neglecting the Fountain of life.**

**Many of the things we need can wait, the children cannot.**

**Right now is the time that her/his bones are being formed, her/his blood is being made & her/his senses are being developed. To her/him we cannot say . .**

**“TOMORROW”  
HER / HIS NAME IS**

**Late Dr.N.K.A. Iyer  
Founder Secretary**

## EXECUTIVE SUMMARY

### PREFACE

GRAMA VIKAS (GV) was founded in September 1979 and registered as a NGO under KSR Act 1960. Late Dr. N.K.A. Iyer established GV with the help of his friends. Integrated Rural Development (IRD) is the approach of GV. After having worked and gained experience for almost two and half decades, GV had expanded its activities into Raichur in 2007 & completed 2016. GV its work had extended to Kadur taluk of Chickmaglore District in year 2005 and completed in 2011. Integrated Child Development, Women Empowerment and Natural Resources Management and Development were the major programmes of GV. The primary stake holders of GV programmes were Dalits, BPL and highly marginalized communities.

Late Dr. N.K. Iyer headed the organization till 1992. Later on, the organization has successfully continued its services with the support of all the General & Governing Body members, who are contributing their huge experience and concern for the objectives of the organization

Several donor agencies have supported Grama Vikas in its 40 years long journey. Presently in the financial year 2020-21, Wipro Foundation, Zerodha Broking Limited newly funded donors has been extended their financial support for the COVID 19 relief and release programmes of Grama Vikas.

Snake conservation programme has also been undertaken in urban place in Bengaluru district, in collaboration with Haavu mattu Naavu team

**REPORT ON GRAMA VIKAS (GV) RELIEF PROGRAME TO SUPPORT  
HIGHLY VULNERABLE FAMILIES BECAUSE OF COVID 19**

**Background of the programme**

After the 1<sup>st</sup> lockdown announced by the Government of India in the end of the month of March, GV team has had thought of two things.

One) providing food kits and simultaneously started educating communities on the importance of SOCIAL DISTANCE and HAND WASH and Two) appealed to all the Governing Board members to help the GV team to raise funds in order to provide food kits and medicines to vulnerable families in and around GV office. TWO of the Governing Board members contributed funds and also shared about GV's response to counter COVID 19 effect in their face book accounts which raised Rs.1,17,600/-. Board Members of GV had contributed Rs.39,000/-. With this funding raised, GV's team provided Food kits, vegetables and medicines in 7 villages to 157 families who were in dire need. How GV operationalized distributing these food kits?.A five member team from the community was promoted to buy vegetables, medicines and rations.By this time, GV has gained some experience as to how to distribute food kits to families by engaging a 19 member young women team consists of college going girls and mothers. Youth& village community leaders were also involved in the process.

This action of the organization has given an idea to people that they can approach GV for help. At this juncture, GV has submitted a proposal to WIPRO FOUNDATION through Shri.S.Vishwanath. The proposal explains the situation of the rural community caused by covid-19 and why GV has approached to wipro.

## Wipro funding support: Food kit distribution for 1300 families

### *Details of activities and process*

06	<i>A message was sent to seek permission to print logo of WIPRO FOUNDATION on the banner</i>	<i>10<sup>th</sup> May 2020</i>
07	<i>Approval was received from WIPRO FOUNDATION to print LOGO on Banner</i>	<i>11<sup>th</sup> May 2020</i>
08	<i>WIPRO Funds received by GV to it's Local Fund account</i>	<i>11<sup>th</sup> May 2020</i>
09	<i>Supply of FOOD PROVISIONS by whole wholesalers</i>	<i>16<sup>th</sup> May</i>
10	<i>Collected lists from the community leaders</i>	<i>18<sup>th</sup> May onwards</i>
11	<i>Started FOOD KITS distribution</i>	<i>19<sup>th</sup> May 2020</i>

*As soon as GV received funds from WIPRO Foundation on 11<sup>th</sup> May 2020 to it's account, started raising quotations from the WHOLE SALE traders of provisions from 6 traders in Bangarpet and Kolar towns, as per the PROCUREMENT POLICY of GV.*

*Grama Vikas collected samples of food grains along with quotations. A comparative statement was prepared and supply order was issued based on the quality of food provisions and low cost, to the whole sale traders on 15<sup>th</sup> May 2020 and thus it took including both days, 4 days of time. We had also explained to traders that the provisions were to distribute to vulnerable families and requested them to quote low price. This had worked out very well.*

*How the distribution of food kits was operationalized:*

- 1. Identified village leaders and oriented them about selecting highly vulnerable families and issued them CRITERIA's letter. These village leaders were ex Grama Panchayat members, Community Based Organisations leaders, Anganwadi teachers and ASHA workers*
- 2. Started collecting lists of vulnerable families to distribute food kits*
- 3. One to one discussions also took place to verify lists*

*A criterion was set to give top priority to poorest of the poor families. The following conditions were laid to define POOREST OF THE POOR:*

- 1. Families headed by widow women who come under below Poverty Line(BPL)*
- 2. Deserted women who are under BPL*
- 3. Age old (Senior citizens) who do not have any support and depend on government pension schemes*
- 4. Differently abled who depend on government Pension schemes*
- 5. Chronically ill people from BPL families*
- 6. Poorest of the Poor*

Payments to whole sale dealers who supplied FOOD provisions made through electronic payment as and when we received the food items.

Each food kit consists of 25 items plus 2 items for only pregnant women, lactating mothers and TB PLHIVs.

## **GRAMA VIKAS OBSERVATIONS/LEARINGS AND FINDINGS**

- ▶ Local politicians distributed some rice and half a kilo vegetables which were rotten. Government too distributed through PDS only rice, wheat and one kilo toor dal.
- ▶ Children suffering with malnutrition, pregnant women and lactating other need special nutrition which was supplied by GV- WIPRO FOUNDATION support. Lots of vegetables and protein mix powder was too supplied.
- ▶ Also diabetic, PLHIVs and TB patients were provided nutritional food.
- ▶ People who had received the food kits from Grama Vikas- WIPRO FOUNDATION programme consists of varieties of grains, sambar items, oil, sugar, different variety of vegetables, soaps, pickle, protein mix etc.... which made people very happy and satisfied. People started sharing with their friends and relatives in the nearby villages and this propaganda lead to many requests from the needy people in the villages.
- ▶ People are keen to do work and earn their food rather than giving away by some people what they like. People do not have choice. When they earn their wages, they will have a choice what they want with the money to buy.
- ▶ During the food distribution period Covid19 infected cases reported and this made people not to go outside the villages and many many requests for DRY FOOD pour in.
- ▶ As 1000s of people migrated from Bangalore city into villages, it added fuel to the fire.

**GRAMA VIKAS's CORPUS FUND for RELIEF AND RELEASE from Covid-19 cause**

**MGNREGA FACILITATION –Linkage with Panchyat Raj System  
(Govt.)**

*Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA) Govt. of India facilitated by Grama Vikas for creating livelihood of the needy families*

*While providing food kits to people, GV has motivated people in Honnsethalli to approach Grama Panchayat (GP) to seek employment under MGNREGA ACT. Because MGNREGA is not a program, it is a people's right to get employment at village level and within 5 km surroundings. But, people had expressed their views that "we could not get wages from the GP easily, earth work is very hard could not do that, per day wage is very less comparatively other works which we are getting now, e t c . . . After learnt this from people GV had committed to the works done in favour of people then started facilitating, intervening, coordinating for filling the gaps. GV immediately organized one day training/orientation on MGNREGA and also conducted a QUIZ competition in which majority of the villagers participated. The winners were given away prizes. People learnt that it was their right to seek employment and the process began with the help of GV staff providing people secretarial support in processing application to GP, documentation, collecting relevant records like job cards and bank pass books. Also lot of time was given by the organisation in follow-up. The GP member of this village was engaged completely in tacking procedure delays. He was paid an honorarium for giving his full time to kick off the work under MGNREGA in record time.*

*GV's goal was to retain people in the village. How to realize the goal was a challenge. Then, GV felt that the hard physical work deserves Rs.400/- a day. MGNREGA provides wages of Rs.275/- a day only for designated work of digging a pit of 3 feet x 3 feet x 3 feet measurements. GV felt that it should provide a matching wages of Rs.125/- in addition to*

Rs.275/-. This strategy retained people in the village. People in the surrounding villages were influenced by the work in Honnsethalli and initiated the process of mobilizing resources from MGNREGA for the benefit of people in their villages and work -started those two villages.

During the facilitation Grama Vikas (GV) has taken initiative, processed all the documentation and applied lots of pressure on the Grama Panchayat member of this constituency and finally the programme was kicked off on 29<sup>th</sup> May 2020 with completely people's participation. This was the first time in the history of Honnsethalli MGNREGA was implemented with people's involvement. Till date, a few local contractors hand in glove with Grama Panchayat officials did the MGNREGA works in the village with machinery and cooked up bills in such a way that the work was done by people.

Reasons why people do not show interest in MGNREGA works in a district like Kolar?

- a) In Kolar district dairying, sheep rearing and granite quarrying are the reasons for people not showing interest
- b) In Kolar district lots of vegetable cultivation takes place. Hence, the vegetable cultivation farmers give regular employment. Transport people from the door step and drop them back. Some farmers even feed them with one meal. Also, some times, generously give some vegetables to workers to take back home for night meal.
- c) Vegetable cultivators pay Rs.300/- against the Rs.275/- from MGNREGA. Moreover, farmers pay the workers before they leave for their homes. This kind of facility is not available in MGNREGA. There are many examples where people do not get their wages even after months because of variety of reasons which do not have any concern for people...
- a) Cost of living, needs of people like resources for agricultural operations when once monsoon sets in, children's school expenses and medical expenses together need a decent wages.

Grama Vikas has invested lots of efforts and got the MGNREGA work from the GP. Every village does not have same facilitation support. Human resource from the Organisation to process the requests and do all the necessary documents is needed. **This is the need of the hour.** Because, some vested interests are engaging machinery (JCBs) and cooking up records and executing earth works and pocketing money. One such case occurred in this GP where Rs.5 lakhs were spent by one local contractor.

- b) *The wages we expect people to get for hard work motivate people to work collectively in their village only which promotes micro environment as well.*
- c) *GV has also decided to give the workers one nutritious meal so that people start work early morning by 6 a.m. and stop work by 10 a.m. Go homes take rest for some time and again starts work from 3 p.m. to 6 p.m. This idea of one nutritious meal is to help women from to release from drudgery of work (fetching water and cooking) in the morning and again attending work will be a burden on women. Moreover, this meal will give all women nutrition during hard work.*

*How this intervention/strategy addressed gender issue?*

- 1) *No drudgery of work for women*
- 2) *Child rights taken care*
- 3) *Women's health is protected*

*After learning about GV's approach to MGNREGA people in the surrounding villages showing keen interest and in the same Grama Panchayat people in Doddiganahalli village people are starting work from Monday i.e 8<sup>th</sup> June 2020.*

- d) *This strategy of GV has educated people to question vested interests who robbed millions of rupees till date in the villages of Grama Panchayat.*
- e) *New leadership is emerging in the villages*
- f) *This will also motivate people to demand for more and a meal during the period of MGNREGA work in the villages.*

**Taluk Panchayat Samithi visit to MGNREGA work place in**

**Honnsetthalli:**

*Executive Officer of the Taluk Panchayat Samithi (TPS) had visited along with his officers to Honnsetthalli MGNREGA work spot and appreciated while work was in progress by 48 persons from the village. He was quite impressed when he saw the pits, planting of the saplings and the care given to them.*

## **WORLD ENVIRONMENT DAY:**

*Because people dug pits to plant saplings on the tank bed, the Grama Panchayat, forest department and the Taluk Panchayat Samithi (TPS) jointly planted 205 saplings of water resistant plants such as JAMOON, PONGAMIA and MATTI.*

*All the workers too involved in the tree planting work. A proposal was put before GP and TPS to promote a new organization of cattle grazers to protect plants, it was CATTLE GRAZERS ASSOCIATIONS. Recently retired GP members from the GP assured that it would find resources to pay one watch and ward in addition to promoting CATTLE GRAZERS ASSOCIATION in the village as a pilot project in the GP.*

*GV's approach in Honnsethalli is showing way to people in other village called DODDIGANAHALLI and RAMASANDRA.*

### **MGNREGA in Doddiganahalli:**

*People in the village are keen to work and process for employment begun. MGNREGA act was started in Doddiganahalli village in Devarayasamudra Grama Panchayat. People who came to collect rations visited the tank (lake) bed in Honnsethalli while people of this village were doing the work and got information about the programme. Mr. Gunasekhar who facilitated the process with GP got the programme sanctioned and on the last day of the reporting period 133 pits were dug*

## IMPACT OF MGNREGA in Doddiganahalli

Mr. Gunasekhar, the former GP member of the village took initiative and processed the documents to kick off the work in Doddiganahalli village, so Mr. Gunasekhar came. He came to know that in his village one work was executed by a vested interest in hand in glove with GP officials. Grama Vikas had organized training about MGNREGA which gave information to people about the Ombudsman with phone numbers. Mr. Gunasekhar had immediately contacted Justice Sriramaiah (retired Judge) Ombudsman in ZP office for MGNREGA work. Ombudsman immediately acted and the bills for the work executed by the vested interest with machinery were withheld and an inquiry was going on.

**MGNREGA in Ramasandra**

Ramasandra is a village of one single community and 100% of people in this village belong to SC/Adi Karnataka Community.

MGNREGA work in Honnsetthalli and Doddiganahalli village motivated Ramasandra people. Two community leaders, Mr. Venkatappa and Mr. Manjunath, started the process with Grama Panchayat to get MGNREGA work for their village too. About 85% of families do not have JOB CARDS in this village. Grama Vikas had provided food kits to the families initially and when these people came to Grama Vikas office to receive the food kits they also visited the work spot of MGNREGA work in Honsetthalli, this motivated people in Ramasandra to get this programme to their village as well. People in Ramasandra very badly need job for livelihoods so that they can be self-reliant. Notwithstanding the demand for job, Grama Panchayat officials did not respond positively to process job cards. Grama Vikas, then approached the Executive Officer (EO) of talukpanchayat who acted positively and the work will be starting on Wednesday(i.e 24th June 2020).

## *Visit of Senior Assistant Director to Grama Vikas*

*Mrs. Shivakumari visited GV to learn more about our work and food processing of tomatoes and to interact with the women's groups involved in it. She was impressed the way women did Protein mix very traditionally. She offered stalls whenever exhibitions take place in Kolar and Bangalore. She was very impressed because the products were done very hygienically.*

*GV always believes in RELIEF and RELEASE approach. The meaning of the word “release” in this context is: releasing people from the clutches of the situation to realize their strengths to lead a dignified life. For immediate survival food kits and vegetables were distributed to people. Also medicines were distributed in some cases. While the food stocks were at home, GV thought of sustaining the livelihoods of people.*

*Immediately, contacted GP and got employment opportunities for people in the form of MGNREGA works. This is to lead a self-dignified life. NOT TO DEPEND ON CHARITY FROM OUTSIDE continuously.- To EMPOWER the communities the following were organized:*

- a. Skill development in food processing,*

- b. Awareness building in Panchayat Raj Institutions Act,
- c. Importance and significance of participating in Grama Sabhas and Ward Sabhas,
- d. MGNREGA works

*The financial support from WIPRO FOUNDTION strengthened the hands of GV and it's approach of RELIEF AND RELEASE. It has also provided an opportunity to GV TEAM which inspired us to work to get MGNREGA support for the benefit of people. Requests pour in from other villages to support them with a matching wages. This approach and intervention of us will completely STOP malpractices in MGNREGA implementation and a new culture and thinking among rural folks will take off....*

## ZERODHA BROKING LIMITED SUPPORT - COVID 19 RELEASE & RELIEF PROG

### LIVELIHOOD PROGRAMS BY LINKAGE WITH PANCHAYATH RAJ SYSTEM (GOVT.) DURING COVID19

*Grama Vikas (GV) with the support of ZERODHA BROKING LIMITED launched a very innovative project in strengthening employment generation programme under Mahatma Gandhi National Rural Employment Guarantee Act (MGNREGA). As we are all aware that under MGNREGA a family can get 100 days (during covid 150 days) of employment in the village to earn livelihoods in the village by taking up community and individual family development projects in the area of Natural Resources Development and Management (NRDM) activities. A person will be paid by the Grama Panchayat Rs.275/- wages for a specific measurement of work.*

*The wages in the area are more than Rs.275/- and hence people do not show interest to draw benefit from MGNREGA. This is allowing lots of malpractices and the Grama Panchyat bureaucracy hand in glove with local contractors and looting monies. GV as a strategy paid top up wages of Rs.125/- extra to motivate people to work in the village itself and eliminate completely contractors to loot monies. This strategy created community assets to conserve more water which is very important and significant in a district like Kolar where groundwater table is at about 1500 feet which was at 25 feet during 1970''s. During COVID times it is very essential to pay top up wages so that people do not go outside the village for earning livelihoods which might spread Corona virus.*

*At this time of the hour we were asked to provide some details of the funds GV required to continue, by Mr. Sudeep.*

*GV provided the needed information to sustain the top up wages of Rs.125/- per day per head. Got the support on 2<sup>nd</sup> of July 2020.*

#### **1. In Doddiganahalli village: REPAIRING OF IRRIGATION TANK FEEDER CANAL:**

*The feeder channel to Village Lake was repaired. During monsoon times rain water flows in*

TANK FEEDER CANAL BEFORE THE

*this channel and it ends up into the village irrigation lake/pond (TANK). This water is used by the farmers in tank the command area to grow rice crop. Lots of bushes have grown up in this feeder channel which obstructs smooth flow into the lake. Because of the bushes grown in the feeder channel sometimes water does not flow into the tank and it goes all over and this will cause “not enough water” in the lake and create problem for farmers. This feeder channel was repaired. For which the people of Doddignahalli got from MGNREGA scheme of Grama Panchayat.*

### **In Ramasandra village - PLANTATION WORK IN TANK FORESHORE AREA**

*In this village on the foreshore area of village lake/pond/tank 305 pits were dug of 3 feet width x 3 feet length and 3 feet depth i.e. one Cubic Meter. This was to plant water resistant forest saplings and these trees provide fruits to birds and green manure to farmer’s rice farms.*

### **In Doddiganahalli KALYANI SILT EXCAVATION**

*In this village while digging pits to plant saplings, It was found a traditional water pond which is called locally KALYANI. This structure was covered under the lake silt and wild plants. While uprooting some wild plants on the lake bed people found this age old structure and excavated the silt and tried to re-construct the structure. It was budgeted by the local government to repair the age old structure and re-set it. But, unfortunately, a local contractor hand in glove with the GP officials tried to pocket the money by showing another piece of work. People in the village*

*unearthed the scam and the contractor did not make good. It was reported to OMBUDSMAN who instructed the district level officials to not to make any payments to the local contractor. The timely intervention of the people and OMBUDSMAN avoided malpractice of Rs.5/- lakhs. People requested GV to help them to excavate all the silt and re-set the traditional water conservation structure called “KALYANI” which plays a very important role in a complete dry district like Kolar where water table dropped to 1500 feet from 25 feet in 1970”s. Then GV, invested some funds of it’s own and paid Rs.125/- from ZERODHA Contribution to do initial work for two days. As we do not have sufficient funds to remove the disturbed stone structure and re-set it, the work was stopped. In Mulbagal taluk every village has about 3 to 4 such micro water conservation structures near the village temples, road sides, and command areas of the irrigation tanks and on the tank beds. In Mulbagal taluk there are 302 villages and there are about 1200 such structures.*

*These structures were created to store water for cattle and birds during summer times. These structures in today’s context will have tremendous relevance and unfortunately all*

most all the structures are in dilapidated status. Each structure worth minimum few lakhs. A small investment will make huge difference in conserving Bio Diversity as well. This structure will store about 130,000 liters water during summer times. Since there are no funds available from GP budget, GV decided to invest it's own resources and did two days work and paid Rs.275/- per head per day and the top up wages of Rs.125/-were paid from ZERODHA budget. We are in the process of scouting for funds to redo the structure using available stone material so that it will sustain for a couple of centuries.

### ***In Honnsetthalli WATER POND for CATTLE and BIRDS:***

Under MGNREGA, the village has provision to dig for two water ponds in GP budget. Digging of water pond of measurements 24 meters x 24 meters and 2 meters was started on 3<sup>rd</sup> July 2020 and stopped on 8<sup>th</sup> July 2020 because there was good rain on 8<sup>th</sup> July night. Work did not continue since then till now i.e 30<sup>th</sup> July 2020. It was raining almost every second day. Two days ago people started planting saplings in the pits. From 3<sup>rd</sup> July 2020 to 8<sup>th</sup> July 2020, people excavated 154 cubic meters which stored about 154,000 liters of extra rain water in the irrigation tank. Still there is lot of dampness in the soils. Few days' sun light can dry the surface of the tank bed to re-start the excavation of the work.

After a week's work, because of rains in the area work was stopped. Two reasons mainly stopped the work. One is ) people started agricultural operations and the second reason was too much of wetness on the tank bed the water pond for cattle work was stopped temporarily and then the cattle pond work under

MGNREGA will be continued after a dry spell.

Total number of meters of silt to be excavated is: 1,152 cubic meters which can store about 11, 52,000 liters of extra water for cattle and birds so that the BIO-DIVERSITY in the area can be protected. The

structure will be lined with stones so that silt does not slide and collapse.

In two of the villages, implemented TREE PLANTING on the FORESHORE areas of the tanks under MGNREGA with the support of FOREST DEPARTMENT. In Doddiganahalli and Honnasettahalli planted 920 saplings and which cost about Rs.180,000/- which were supplied by the FOREST DEPARTMENT at 100% subsidized cost. In one of the village, JUNGLE CLEANING of tank bund was done by the people. In these villages GV-Zerodha paid the top up wages of Rs.125/- per head per day to the workers.

Tank bund work is in progress

*Grama Vikas has invested lots of efforts and got the MGNREGA work from the GP. Every village does not have same facilitation support. Human resources from the Organisation to process the requests and do all the necessary documents are needed. **This is the need of the hour.** Because, some vested interests are engaging machinery (JCBs) and cooking up records and executing earth works and pocketing money. One such case occurred in a GP where Rs.5/- lakhs were spent by one local contractor.*

*At this juncture, a communication was emailed to ZERODHA BROKING LIMITED explaining as to why we could not pay TOP UP wages of Rs.125/- per day per head to the workers of MGNREGA progarmme. Emails were exchanged between Grama Vikas and Zerodha Broking Limited. Grama Vikas provided THREE options to utilise judiciously the balance funds of Rs.3,04,100/-. Zerodha Broking Limited allowed us to utilise funds in an appropriate way in the available situation.*

*Finally, it was decided to provide FOOD KITS to 285 vulnerable families in other villages of GramaVikas project area rains did not affect MGNREGA works. The reason of providing FOOD KITS instead of top up*

wages was the WINE SHOPS were opened during UNLOCK 3... We were a bit concerned that the wages paid, in a few cases will end up in wine consumption instead of FOOD consumption. Hence, it was decided to give FOOD KITS so that the women and children in the families would get food to consume.

**SUPPLY OF FOOD KITS FOR MGNREGA WORKERS AND VULNERABLE FAMILIES funded by**

**ZIRODHA BROKING LIMITED**

Monsoon is very active and the environment is not conducive to employment from MGNREGA and to pay top up wages, the next alternative was provided food kits to the people in 5+ villages, because the COVID 19 situation is pretty bad in the district and people confined to their villages and not moving outside the village for want of employment. Also provided energy food called high protein food to children, adolescent age girls and to pregnant and lactating mothers. 285 families consists of 1288 population were received food kits from GV-ZERODHA BROKING LIMITED programme.

## OBSERVATIONS

People who had received the food kits from G V- ZERODHA BROKING LIMITED programme consists of varieties of grains and (lentils) dals, sambar items, oil, sugar, onion, garlicks, soaps, pickle, protein mix etc.... which made people very happy and satisfied.

People are keen to do MGNREGA work and earn their food rather than giving away by some people what they like.

As 1000s of people migrated from Bangalore city into villages, it added fuel to the fire. But local politicians distributed some rice and half a kilo vegetables which were rotten. Government too distributed through PDS only rice, wheat and one kilo toor dal.

Mr. Sudeep, Bangalore had visited to GV on 30th August-20 and attended the program, and distributed food kits to the people from Reddihalli village who worked for MGNREGA.

## CONVERGENCE WITH GOVT. DEPARTMENTS

*District Commissioner's visit to GV: Food kits distribution program was inaugurated by the DC (District Commissioner) of Kolar District on 19th August-20. DC (Mrs. Sathyabhama) is now acting as in charge CEO also. While addressing she explained about the importance of MGNREGA program and its utilisation by the people. Food kits distribution and top up wages paid by GV Zerodha was well recognised by the DC.*

*Govt. Department of education, BEO (Block Education Officer) and Administrator for two Grama Panchayats (GP of Devarayasamudra and Avani) Mrs. Girijeshwari had visited to GV. She appreciated the MGNREGA works done by the people through GV's facilitation. She informed that all kind of cooperation to GV from her as an administrator.*

*Also visited Grama Panchayat PDO Mrs. Shylaja, discussed about MGNREGA.*

## CAN - Kolar (COLLECTIVE ACTIONS NETWORK-Kolar District)

The Non-Government /Voluntary Organisations work in the area of value-added policies-rules, human rights, pro-people advocacy, etc. In this context organizations-institutions are essential in order discuss about the various problems that face at the district, state and national level and work accordingly. It is very sad to learn that the NGOs/Voluntary organizations which have created history by building community groups to strengthen the society are still unorganized and it is also a unbearable loss. Grama Vikas is working in this context, to lead the district level NGOs/Voluntary Organisations network, to help its existence, through its networking activity. But the major problem faced by Grama Vikas in taking forward its networking activity is financial support. The organization doesn't have any donors. There are no enough funds even to meet small expenses like minimum facilities, material, travel expenses, food, maintenance, etc. There are instances where the organization has been continuing its work by meeting its own expenses, without even local help.

A total number of 15 meetings have been held under the CAN Network in the year 2020-21, with participation of 22 NGOs. The major topics which were discussed in these meetings are new membership for networking, convergence with Govt. and likeminded institutions; expanding the networking activities, network registration renewal, etc. Three new NGOs have been included into the network. Dhvani foundation training & linkages for good governance of the CAN ngos have been conducted, Rotary club is established for CAN itself and linkages for getting various programmes to implementing for benefit of the communities in the ngos working area, water problem, insurance coverage to workers, etc., have been implemented. Efforts have been made to implement RPOW Restore promise of water in funding collaboration with consortium donors -Rotary 3190, IIT-IIT, Caring friends, ATE Chandra Foundation. .

Grama Vikas has been providing guidance regularly with respect to networking activity. GV is putting its efforts to lead the network in times of crisis that may arise due to social reasons.

**Gram Vikas-Haavu Mattu Naavu is working towards mitigating snakebite deaths and reducing conflict between snakes and humans in rural Karnataka, India. We are primarily focused on spreading awareness about snakebite personal safety habits and practices, correct first aid procedures using interactive regional educative materials. It is a consolidated, large scale outreach program, India being the snakebite capital of the World, still lacks the basic infrastructure, anti-venom supply, and support to the poor rural farmers and villagers. We strongly believe that snakebites are accidents and they can be prevented. Hence our focus is primarily on mitigating snakebites by educating and spreading awareness about personal safety practices and correct first-aids in rural India and save lives till the time the world and India are ready with affordable-sustainable medical infrastructure and anti-venom for the poor.**

Sanjeev Pednekar is an established herpetologist with experience that has spanned over 12 years in urban wildlife conflict management and control of wildlife trade. He possesses diverse experience in human-animal conflict resolution and urban ecology. He founded Into The Wild in the year 2010 to facilitate long-term hands-on experience in animal handling, urban rescue, and rehabilitation. Into The Wild focuses on enhancing environmental literacy and responsible citizenship through habitat restoration and community building. Sanjeev is also the founder of Prani The Pet Sanctuary, a first of its kind educative center which is imparting knowledge about animals and coexistence while bridging the gap between humans and nature in a fast urbanizing world. Sanjeev also led the team that built Asia's biggest aviary at Essel World, Mumbai. He is the founder & mentor at Haavu Mattu Navvu.

Spoorthi Completed her triple major in Biotechnology, Chemistry, and Zoology from Christ University, Bangalore. She interned at the Indian Institute of Science, studying the behaviour and physiology of Indian rock agamas. She has volunteered at the Centre for Wildlife Study on tiger prey population estimation and Agumbe Rainforest Research Station on Human-Snake conflict mitigation. Spoorthi has conducted various independent researches to study rescued snakes in Tumkur and Bangalore. Her broad interests include field herpetology, wildlife conservation, and Human-Snake conflict management. She is currently a Snakebite Educator and Project Manager who is implementing Haavu Mattu Naavu.

Team Gram Vikas-Haavu Mattu Naavu is grateful to the Forest Department of Karnataka in helping us reach out to the Educational Institutions and Gram Panchayat across 10 districts and 28 Talukas. We thank them for their unconditional support in making this project a huge success and in helping us reach out to the community members at the grass root level.

## EDUCATORS

## FOREST DEPARTMENT

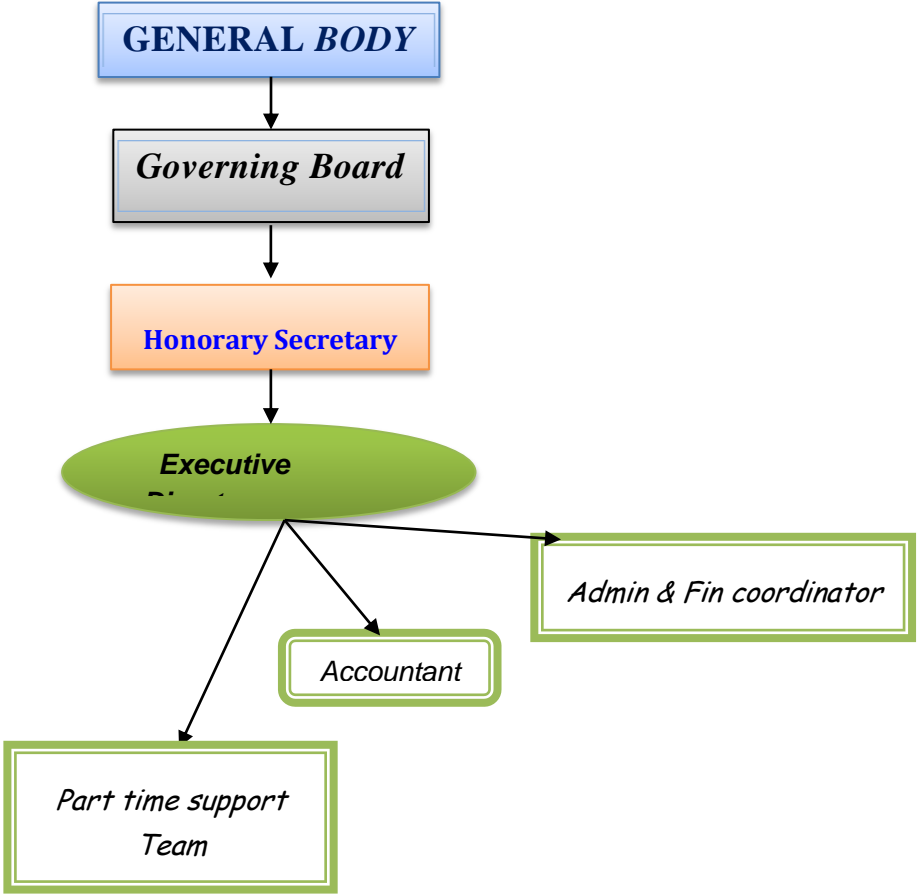

## EDUCATIONAL INSTITUTIONS

With the help of various staffs from respective ranges, we received leads to reach out to education institutions. Calls were made to the Head of Department of schools and colleges for the requisite permission to conduct workshops. The forest officials helped the team in informing Gram panchayats prior to the session to gather villagers for the workshop. Gram Vikas-Haavu Mattu Naavu reached out to 6200 community members during these sessions

## GRAM PANCHAYAT

Workshops conducted at these educational institutions were done under covid19 safety protocol. The sessions were conducted outdoors taking social distancing into account. The team engaged the students using reality TV as projectors and speakers were not a feasible option. Gram Vikas-Haavu Mattu Naavu reached out to 13832 students during these sessions
